REGULATIONS FOR COLLECTION OF CURBSIDE RECYCLING

As of 01/01/2012

How Should Recyclable Materials be Set Out?

L&K Services will pick-up an unlimited amount of recyclables from each household on your scheduled collection day each week. Residents will need to place their recyclable materials in the same location where their trash is picked up. We will provide the initial recycling bin to households at no cost. One additional bin will be made available at no cost by contacting our office or alternatively, residents can use their own containers, including trash barrels. These containers need to be well marked with "RECYCLING" or the universal recycling symbol.

- Recyclables can be commingled and must be placed loosely in a well marked container or bin.
- Recyclables cannot be placed in a trash bag.
- All containers placed in your container or bin must be thoroughly rinsed.
